PROFESSIONAL SUMMARY

Senior Full-stack Software Engineer with 8+ years of experience building scalable SaaS applications and AI-powered platforms. Experienced in PHP, TypeScript, Node.js, Angular, AWS, Docker, Kubernetes, and integrating OpenAI and other LLM technologies into production systems.

EXPERIENCE

Full-stack developer

Conversation24 01/2024 - Present | Remote, Netherlands

- Developed and maintained AI-powered customer communication solutions for a live-chat SaaS platform using TypeScript, PHP, and Angular.
- Built AI features by integrating OpenAI APIs, enabling conversational assistants, structured outputs, function calling, and support for multiple LLM providers.
- Designed and maintained scalable backend services, REST APIs, and real-time communication using Redis, RabbitMQ, and WebSockets.
- Collaborated on CI/CD pipelines, containerized applications, Kubernetes deployments, and production monitoring to support reliable software delivery.
- Tech Stack: TypeScript, JavaScript, PHP, Symfony, Angular, OpenAI APIs, REST APIs, Redis, RabbitMQ, WebSockets, Docker, Kubernetes, AWS, Git.

Full-stack developer

BuchhaltungsButler 04/2022 - 01/2024 | Remote, Germany

- Developed and maintained features for a cloud-based accounting platform, building backend services, APIs, and frontend components.
- Tech Stack: PHP (Laminas, Symfony), Node.js, JavaScript, React.js, Redis, RabbitMQ, Docker, Kubernetes, AWS.

Full-stack developer

Cobrowser 02/2020 - 04/2022 | Remote, Netherlands

- Built and enhanced real-time live chat and screen-sharing solutions, developing backend services and communication features.
- Tech Stack: Node.js, Symfony, AngularJS, Redis, RabbitMQ, XMPP, WebSockets, Docker, Kubernetes, AWS.

Software Engineer

Trufla Technology 08/2019 - 02/2020 | Cairo, Egypt

- Developed web applications and backend services for the insurance industry, delivering scalable business solutions.
- Tech Stack: Laravel, Node.js, Python, Redis, RabbitMQ, Docker, AWS.

Software Engineer

Botme 10/2018 - 08/2019 | Cairo, Egypt

- Developed features for a chatbot-building platform, contributing to both backend services and web applications.
- Tech Stack: Symfony, Node.js, Angular, Redis, AWS.

Backend Engineer

Mojaz 02/2018 - 10/2018 | Cairo, Egypt

- Built and maintained backend services for a video-sharing social networking platform.
- Tech Stack: Symfony, Redis, RabbitMQ.

Web Developer

ATW 05/2016 - 02/2018 | Giza, Egypt

- Developed a variety of web applications including e-commerce, business directory, and auction platforms.
- Tech Stack: Java, Laravel, Node.js, AngularJS, Vue.js, Redis, WebRTC, WebSockets.

CERTIFICATIONS

Verify all my certifications on credly

- AWS Certified Developer – Associate
- AWS Certified Solutions Architect – Associate
- AWS Certified SysOps Administrator – Associate
- Certified Kubestronaut (Hold all kubernetes certifications CKA, CKS, CKAD, KCNA, KCSA)

EDUCATION

Bachelor of Computer Science

Akhbar Elyoum Academy - Egypt • 2016
